# 👉 How To Install Contact US ?

Install using composer:

1. composer require aimsinfosoft/module-contactus
2. php bin/magento setup:upgrade
3. php bin/magento setup:di:compile
4. php bin/magento setup:static-content:deploy -f

Install Manually:

1. Add zip file in app/code folder and extract it and run below commands
2. php bin/magento setup:upgrade
3. php bin/magento setup:di:compile
4. php bin/magento setup:static-content:deploy -f

👉 How Contact US works ?

❖ By default, the behavior of the Contact Us form is such that when the form is submitted, the data is not displayed anywhere in the admin grid.

❖ The Contact Us module enables storing the data from the Contact Us form submitted by customers trying to reach you.

❖ Additionally, you can edit existing inquiries or add new contact inquiries directly from the backend by clicking the "Add New" button under:

❖ Customers >> Manage ContactUs.
