Do configuration as per above screenshot.

- Enable : Select yes for enable the module
- CSP whitelist : In the Cps Whitelist field you have add to
- * policy id and policy Value.
 - Policy id : Enter the policy id like font-src , img-src , frame-src
 - Policy value : Enter base url of the frame like
 - https://connect.facebook.net , *.fontawesome.com
 - For adding New Policy id and Policy value click on add new row

Then save the configuration click on save config.
