👉 How Category Widget Works ?

Aimsinfosoft Category Widget

1. Login Into admin >> Content >> Widgets

The screenshot shows the Magento Admin interface. The left sidebar is expanded to the 'Content' section, with 'Widgets' highlighted. A red arrow points to 'Widgets'. The main content area shows a table of widget instances. The table has columns for 'Email' and 'Created at'. The table contains 10 rows of data.

	Email	Created at

4. Storefront Properties

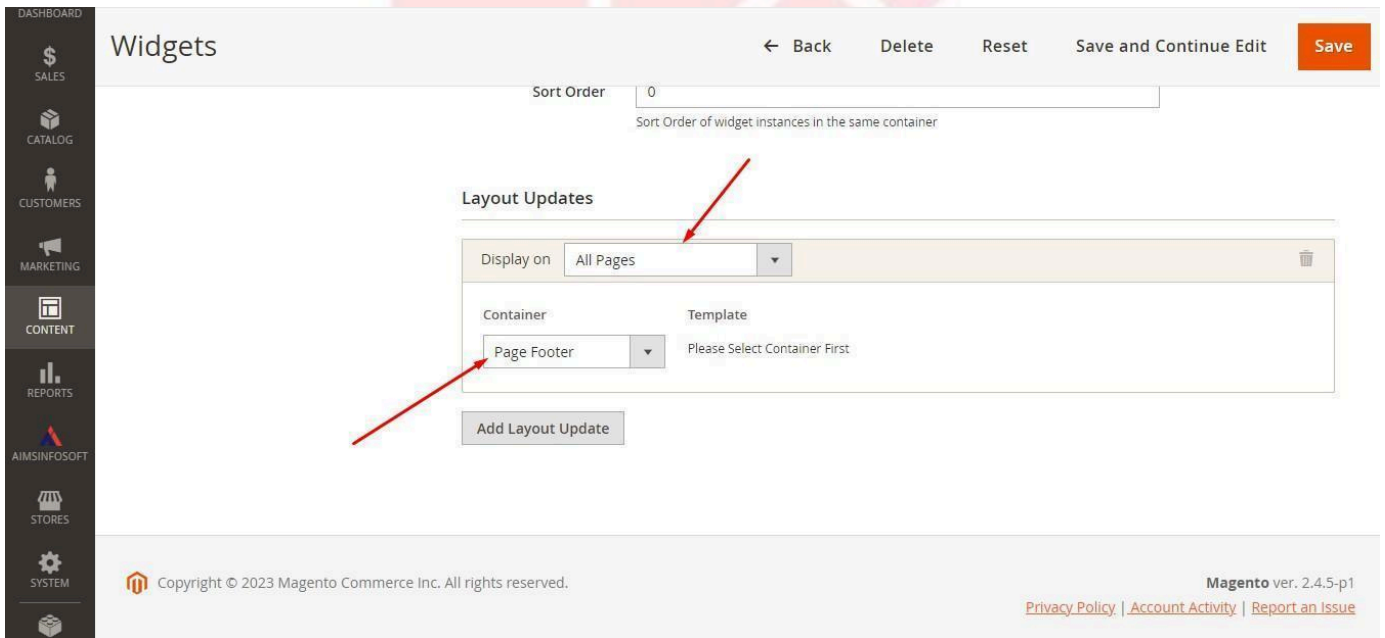

The screenshot shows the 'Storefront Properties' configuration page in the Magento Admin. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, AIMSINFOSOFT, and Stores. The main content area is titled 'WIDGET' and contains a 'Storefront Properties' section with a pencil icon, which is highlighted by a red arrow. Below this is a 'Widget Options' section. The 'Storefront Properties' configuration includes: 'Type' set to 'Category Slider Widget'; 'Design Package/Theme' set to 'Magento Luma'; 'Widget Title' set to 'Category Custom widget' (highlighted with a red box); and 'Assign to Store Views' set to 'All Store Views' (highlighted with a red box and a question mark icon). Under 'All Store Views', the following store views are listed: 'Main Website', 'Main Website Store', and 'Default Store View'.

Click on Add Layout Update

The screenshot shows the 'Widgets' configuration page in the Magento Admin. At the top right, there are navigation buttons: 'Back', 'Reset', and 'Save and Continue Edit'. The main content area shows the 'Assign to store views' configuration, which is identical to the previous screenshot, with 'All Store Views' selected. Below this is a 'Sort Order' field with the text 'Sort Order of widget instances in the same container'. At the bottom, there is a 'Layout Updates' section with an 'Add Layout Update' button, which is highlighted by a red arrow.

Select Position for showing your Category slider

Please select the template based on the theme you are using.
